Little Monsters Gunge

Mixing Instructions

1. Add 10 litres of warm water to a bucket or container.
2. Add 1 sachet at a time mixing by hand or with a electric mixer, the water will start to thicken. Add up to 6 sachets or until you are happy with the consistency of the gunge.
3. Leave for 20-30 minutes to thicken further, store at room temperature or cool in the fridge until ready to use.

Raising Funds

Our suggestion would be to use raffle tickets they can be then sold for £1 each for the opportunity to gunge the head teacher/ nominated teacher, the more you buy the more chances you have to win. (It may be a good opportunity to write the child's name on the stub in the book in case the children lose the ticket).

It may also be worthwhile running a second gunge and let the children choose the second teacher to be gunged, again sell these tickets at £1 each and keep a note of the votes. The person with the most votes gets gunged.

Our Gunge

Our Gunge can be simply washed off clothes and skin, it is non toxic and washable, however we recommend that old clothes are worn on the day and a spare pair of clothes and shoes be brought to change after.

Biodegradable, the gunge can be poured down a drain after use, adding more water will help it dilute as you flush away. An outside drain is recommended.
